SUMMARY

Recent Information Technology graduate with strong foundational knowledge in Python, SQL, Excel, Power BI, Tableau, MySQL, and Git. Skilled in data cleaning, data visualization, dashboard creation, database management, and problem-solving. Hands on experience through academic and self-driven projects involving data analysis and Python development. Successfully completed training in Python, Data Analytics, and Data Science at iTpreneur. Seeking an entry-level opportunity as a Data Analyst, Python Developer , or Data Science Associate to contribute analytical and technical skills while gaining industry experience.

TECHNICAL SKILLS

Programming Languages : Python, JavaScript, C

Tools & Platforms : Git, GitHub, VS Code

Database Management : SQL, MySQL

AI / ML : Data Science, Machine Learning, Artificial Intelligence

Data Analytics & Visualization : Power BI, Tableau, Microsoft Excel, Pandas, NumPy

Core Concepts : Object-Oriented Programming (OOP), Problem Solving, Debugging, Data Analysis

Web Technologies : HTML, CSS, Bootstrap

PROJECTS

Movie Recommendation System | PYTHON , MACHINE LEARNING AND STREAMLIT
- Built a content-based movie recommender using TF-IDF and cosine similarity.
- Developed an interactive web app with Streamlit for personalized movie suggestions.
- Processed and analyzed movie datasets for recommendation optimization.

DMart Sales Data Analysis Dashboard | Tableau
- Analyzed and cleaned retail sales data for insights and accuracy.
- Built interactive dashboards using Power BI and Tableau.
- Identified sales trends, customer behavior, and product performance.
- Generated reports to support business analysis.

Toll Booth Collection System | Python
- Developed a toll booth management system using Python and JSON.
- Implemented file handling for vehicle record management.
- Applied OOP concepts and debugging for system accuracy.

Blinkit Sales Analytics Report | Power BI
- Built an interactive sales dashboard using Microsoft Power BI to analyze sales and customer behavior.
- Cleaned and transformed raw data by handling missing values and duplicates.
- Created KPIs like Total Sales, Profit Margin, and AOV using DAX.
- Analyzed product sales, regions, and payment methods to find business insights.

EDUCATION

Bachelor of Information Technology 2022 – 2025
D.B.J. College of Science, Arts & Commerce
CGPI: 8.80

Higher Secondary Certificate (HSC – Science) 2021 – 2022
Govindrao Nikam Junior School & College Sawarde
Percentage: 54.60%

Secondary School Certificate (SSC) 2019 – 2020
Shavajirao Laxumanrao Nikam Secondary School Kosabi Phurus
Percentage: 87.88%

CERTIFICATIONS / TRAINING

Python, Data Analytics & Data Science, iTpreneur
Topics Covered: Python Programming, NumPy, Pandas, SQL, Data Cleaning, Data Visualization, Power BI, Tableau, Excel, Statistics, and Machine Learning Basics

ACHIEVEMENTS

- Completed multiple academic and personal projects in Python and Data Analytics.
- Built dashboards using Power BI and Tableau.
- Practicing version control using GitHub.
