SUMMARY

Information Technology graduate (CGPI: 8.80) with hands-on experience in Data Analytics, Python, SQL, Power BI, Tableau, and Machine Learning. Built end-to-end analytics and machine learning projects involving data cleaning, exploratory data analysis (EDA), dashboard development, predictive modeling, and business intelligence. Experienced with Excel, Git, Streamlit, and MySQL through academic projects and a Data Analytics internship. Passionate about transforming raw data into actionable insights and seeking an internship or entry-level role in Data Analytics, Business Intelligence, or Python Development.

TECHNICAL SKILLS

Programming Languages : Python, SQL, JavaScript, C

Machine Learning : Scikit-learn, Data Preprocessing, Exploratory Data Analysis (EDA), Model Evaluation

Development : Git, GitHub, VS Code, Streamlit

Data Analytics & Visualization : Power BI, Tableau, Microsoft Excel, Pandas, NumPy, Matplotlib

Database Management : MySQL, NO SQL

Web Technologies : HTML, CSS, Bootstrap

PROJECTS

Customer Churn Analysis and Prediction using Machine Learning
Tech Stack: Python, Pandas, NumPy, Scikit-learn, Streamlit, Matplotlib
- Developed a Machine Learning model to predict customer churn using customer demographics, services, contract, and billing data.
- Performed data preprocessing, exploratory data analysis, feature engineering, and model evaluation using Accuracy, Precision, Recall, F1-Score, and ROC-AUC.
- Built and deployed an interactive Streamlit application for real-time churn prediction and customer insights.

Smart Toll Booth Collection & Traffic Management System Tech
- **Tech Stack:** Python, OOP, JSON, Unittest
- Developed an OOP-based toll management system with vehicle registration, toll calculation, payments, and transaction management.
- Implemented FASTag, prepaid passes, peak-hour charges, discounts, and violation/fine management.
- Built role-based authentication, JSON data storage, exception handling, logging, and daily revenue reports.
- Tested the system using unit and integration tests.

Blinkit Sales Analysis Dashboard | Power BI
Tech Stack: Power BI, DAX, Excel
- Built an interactive Power BI dashboard to analyze sales, orders, profit, quantity, and payment methods.
- Created KPIs, trend charts, category analysis, payment analysis, and geographic sales visualizations.
- Used DAX and interactive filters/slicers to provide actionable insights into sales performance and customer behavior.

EDUCATION

Bachelor of Information Technology 2022 – 2025
D.B.J. College of Science, Arts & Commerce
CGPI: 8.80

Higher Secondary Certificate (HSC – Science) 2021 – 2022
Govindrao Nikam Junior School & College Sawarde
Percentage: 54.60%

Secondary School Certificate (SSC) 2019 – 2020
Shavajirao Laxumanrao Nikam Secondary School Kosabi Phurus
Percentage: 87.88%

CERTIFICATIONS / TRAINING

- Python, Data Analytics & Data Science, iTpreneur

ACHIEVEMENTS

- Completed multiple academic and personal projects in Python and Data Analytics.
- Built dashboards using Power BI and Tableau.
- Practicing version control using GitHub.
